PEREGRINE PIXELS SWIMS A NEW EXPERIENCE TO THE CITY OF DREAMS

Orlando, FL

Peregrine Pixels, LLC announced today the opening of The Virtual Aquarium experience at the City of Dreams Casino in Macau.

A fantastic new experience, The Virtual Aquarium combines live action swimmers with CG animation to create a new type of show that blurs the line between reality and fantasy. Using two enormous, custom designed screens, The Virtual Aquarium offers a rare glimpse into a mystical undersea world of beautiful mermaids.

Combining the sensuous beauty and the ethereal fluidity of aquatic dance, the Virtual Aquarium is a twelve minute experience developed to welcome guests to the City of Dreams resort. Peregrine Pixels was responsible for the creation and quality control of the media for the entire experience, which required combining live action, motion capture and CG animation to create the mesmerizing mermaids.

"The Virtual Aquarium is such a unique production to create, and the final experience turned out wonderful!" says Cecil D. Magpuri, Executive Producer/Founder of Peregrine Pixels. "The Virtual Aquarium is an entrancing experience unlike any other!"

With its ethereal environments, sea creatures and its fabulous mermaids, The Virtual Aquarium is a spectacular experience, viewable only in Macau.

The Virtual Aquarium opened the first of June 2009, as part of the grand opening celebration of the City of Dreams. Along with The Virtual Aquarium, Peregrine Pixels also delivered the fantastic Dragon's Treasure™ media experience to the grand opening of the City of Dreams.
